It identifies key features about our services and how you will pay for them.

2. What services does Cornhill offer?

a. Execution Only Investment Service

Investment Information may be presented to you as "Guidance", a term used to describe where focused information is provided to you to help you make your own investment decisions. All transactions must be confirmed by the account holder prior to the transaction taking place.

Whether or not they are presented as Guidance, Investment Information are prepared and provided for the benefit of all our clients and are not based on a consideration of your particular circumstances. You must not therefore treat them as a personal recommendation or as investment advice given to you.

For both services it is important that you understand:

Cornhill Capital Limited (Cornhill) do not provide personal recommendations and clients should have an independent financial adviser to ensure any transactions meet with their overall investment objectives.

When we provide our investment services we do not advise you on the merits of a transaction and therefore we are not required by the FCA Rules to ensure the transaction is suitable for you (i.e. that the transaction meets your investment objectives, that you are able to financially bear any related investment risks, and that you understand the risks involved in the transaction). This means that you will not benefit from the protection of the FCA Rules which requires firms to make an assessment of suitability.

3. Which clients are our services appropriate for?

Cornhill focuses primarily on the provision of investments and services which are regarded as high risk or "speculative". The product range may be compatible if:

- You have £50,000 in liquid assets or more.
